Subject Index to Volume 16

AB RATIO

Comparison of blood velocity waveform indices recorded by pulsed doppler and continuous wave Doppler in the umbilical artery. Vugt et al. 573.

ABDOMEN

Sonography of the hip joint as part of the evaluation of acute lower abdominal pain. Graif et al. 99.

ABDOMINAL CIRCUMFERENCE

Fetal weight estimates in diabetic gravid women. Miller et al. 569.

ABDOMINAL CYSTS

Ultrasound scanning as a screening technique for hydatidosis in developing countries. Saint Martin et al. 233.

ABDOMINAL SONOGRAPHY, DIAGNOSTIC YIELD

The impact of routine admission abdominal sonography on patient care. Verbanck et al. 651.

ABDOMINAL ULTRASONOGRAPHY

Local texture analysis: An approach to differentiating liver tissue objectively. Schuster et al. 453.

ABSCESS

The real-time ultrasonography of pancreatic pseudocyst: Comparison of infected and noninfected pseudocysts. Lee et al. 393.

ACALCULOUS CHOLECYSTITIS

Acute perforated appendicitis—An unusual variant simulating acute acalculous cholecystitis. Evans et al. 513.

ACUTE CONDITIONS

Sonography of the hip joint as part of the evaluation of acute lower abdominal pain. Graif et al. 99.

ADENOCARCINOMA

Ultrasound appearance of fallopian tube carcinoma. Ajjimakorn et al. 516.

ADNEXA

Pelvic varices: Sonographic and surgical recognition. Willard. 265.

ADNEXAL CYSTS

Simple adnexal cysts diagnosed by ultrasound in postmenopausal women. Andolf et al. 301.

ADRENAL GLANDS

Enlargement of adrenal glands preceding adrenal hemorrhage. Nissenbaum et al. 349.

ADRENAL HEMORRHAGE

Enlargement of adrenal glands preceding adrenal hemorrhage. Nissenbaum et al. 349.

AGE DEPENDENCY

Effects of aging on cardiac blood flow velocities. van Dam et al. 375.

AGENESIS OF THE CORPUS CALLOSUM

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

ANATOMIC ANOMALIES

Diagnosis of ectopia cordis in the second trimester. Klingensmith et al. 204.

ANEURYSMS OF THE EXTRACRANIAL CAROTID ARTERY

Common carotid artery aneurysm: Ultrasonic diagnosis. Wang et al. 262.

ANOMALOUS VEIN

An unusual anomalous intrahepatic connection between the left portal vein and internal mammary veins. Shawker et al. 429.

ANTENATAL DIAGNOSIS

Cerebral blood flow velocity waveforms in hydrocephalic fetuses. Kirkinen et al. 493.

ANTENATAL PERIOD

Antenatal ultrasound diagnosis of the femur—fibula—ulna syndrome. Hirose et al. 199.

ANTENATAL ULTRASOUND EXAMINATION

Antenatal diagnosis of a set of conjoined twins presenting with unusual ultrasound findings. Hurren et al. 672.

ANTERIOR WALL OF THE LOWER UTERINE SEGMENT

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

APPENDICITIS

Acute perforated appendicitis—An unusual variant simulating acute acalculous cholecystitis. Evans et al. 513.

Ultrasonic diagnosis of acute appendicitis complicated by paralytic ileus and generalized periotonitis. Takada et al. 123.

Ultrasonographic features of mucocele of the appendix. Skaane et al. 584.

ARACHNOID CYST

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic clasification. McGahan et al. 531.

In utero ultrasonic detection of fetal arachnoid cyst. Meizner et al. 506.

ARTHROGRAPHY

Clinical significance of sonographic findings in the abnormal but intact rotator cuff: A preliminary report. Crass et al. 625.

ARTIFICIAL PELVIC ASCITES

A case of female infertility investigated by contrast-enhanced echo-gynecography. Davison and Leeton. 44.

ATROPHIC LIVER

An ultrasonic hepatic pseudomass due to colonic interpostion. Wong et al. 669.

BASIC

Portable obstetrical ultrasound calculation and analysis using an inexpensive laptop microcomputer and simple basic program. Dunne et al. 417.

BILATERAL AIR SPACE DISEASE

Enlargement of adrenal glands preceding adrenal hemorrhage. Nissenbaum et al. 349.

BILE DUCTS

Fm sonography in gallbladder disease: Efficacy and comparison with conventional sonography. Henley et al. 563.

BILE DUCTS, HEMORRHAGE

Ultrasound of hemobilia: A clinical and experimental study. Laffey et al. 167.

BILE DUCTS, ULTRASOUND STUDIES

Ultrasound of hemobilia: A clinical and experimental study. Laffey et al. 167.

BILIARY OBSTRUCTION

Sonographic demonstration of echogenic hemobilia. Allen et al. 681.

BIOPSY

Liver biopsy embolization track: Ultrasonic appearance. Carvalho et al. 426.

BIPARIETAL DIAMETER

Fetal weight estimates in diabetic gravid women. Miller et al. 569.

BIRTH WEIGHT

A comparison of two different ultrasound methods for estimating fetal weight in preterm gestations. Campbell et al. 463.

BREAST CANCER, ULTRASOUND STUDIES

The sonographic appearance of the irradiated breast. Calkins et al. 409.

BREAST, RADIATION THERAPY

The sonographic appearance of the irradiated breast. Calkins et al. 409.

BREAST, ULTRASOUND

The sonographic appearance of the irradiated breast. Calkins et al. 409.

BRUCELLOSIS, SCROTAL

Sonographic findings in scrotal brucellosis. Patel et al. 483.

B-SCAN

A prospective study of the efficacy of B-scan sonography in the detection of deep venous thrombosis in the lower extremities. O'Leary et al. 1.

CAPSULO-LIGAMENTOUS LESSIONS OF KNEE

Dynamic ultrasonography of capsulo-ligamentous knee joint traumas. De Flaviis et al. 487.

CARDIAC BLOOD FLOW VELOCITIES

Effects of aging on cardiac blood flow velocities. van Dam et al. 375.

CARDIAC DEFECTS

In utero ultrasound diagnosis of congenital heart disease. Marasini et al. 103.

CARDIAC OUTPUT

Phasic flow in the left ventricular inflow tract: The importance of Doppler sample volume position. Delemarre et al. 227.

CEREBRAL BLOOD FLOW

Cerebral blood flow velocity waveforms in hydrocephalic fetuses. Kirkinen et al. 493.

CERVIX INCOMPETENCE

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

CHEST ROENTGENOGRAM

Sonographic verification of endotracheal tube position in neonates: A modified technique. Lingle. 605.

CHOLECYSTECTOMY

Effect of cholecystectomy on common bile duct diameters: A longitudinal prospective ultrasonographic study. Wedmann et al. 619.

CIRRHOSIS

An ultrasonic hepatic pseudomass due to colonic interpostion. Wong et al. 669.

CIRRHOTIC LIVER

A new method of measuring in vivo sound speed in the reflection mode. Hayashi et al. 87.

CLONORCHIASIS

Sonographic features of biliary clonorchiasis. Morikawa et al. 655.

CLONORCHIS SINENSIS

Sonographic features of biliary clonorchiasis. Morikawa et al. 655.

COEXISTENT INTRAUTERINE AND EXTRAUTERINE PREGNANCIES

Ultrasound diagnosis of combined intrauterine and extrauterine pregnancy. Jurkovic et al. 259.

COMBINED PREGNANCY

Application of ultrasound in the diagnosis of heterotopic pregnancy—a review of the literature. van Dam et al. 159.

COMMON BILE DUCT

Effect of cholecystectomy on common bile duct diameters: A longitudinal prospective ultrasonographic study. Wedmann et al. 619.

COMPUTER-ASSISTED TISSUE DIFFERENTIATION

Local texture analysis: An approach to differentiating liver tissue objectively. Schuster et al. 453.

COMPUTERS

Portable obstetrical ultrasound calculation and analysis using an inexpensive laptop microcomputer and simple basic program. Dunne et al. 417.

CONGENITAL DIAPHRAGMATIC HERNIA

Diaphragmatic eventration into the pericardial sac: Sonographic diagnosis. Vijayaraghavan. 510.

CONTINOUS WAVE DOPPLER

Comparison of blood velocity waveform indices recorded by pulsed Doppler and continuous wave Doppler in the umbilical artery. Vugt et al. 573.

CORD PATHOLOGY

False knot of the umbilical cord sonographic appearance and differential diagnosis. Hertzberg et al. 599.

CORONARY ANGIOGRAPHY

Echocardiographic features of a giant congenital aneurysm of the right coronary artery. Zhang et al. 502.

CORONARY ARTERY ANEURYSMS

Echocariographic features of a giant congenital aneurysm of the right coronary artery. Zhang et al. 502.

CORONARY BLOOD FLOW VELOCITY

Doppler echocardiographic approach to the blood flow of the left anterior descending coronary artery. Miyatake et al. 471.

CROHN'S DISEASE

A complex cystic abdominal mass: An unusual presentation of Crohn's disease in an anticoagulated patient. Khan et al. 271.

CT SCAN

An unusual case of intracerebral hematoma caused by an indriven fragment of bone: Ultrasound evaluation with CT correlation. Weinberg et al. 52.

CYCLOPHOSPHAMIDE

Sonography of cyclophosphamide hemorrhagic cystitis: A report of two cases. Suzuki et al. 183.

CYSTIC BRAIN LESIONS

In utero ultrasonic detection of fetal arachnoid cyst. Meizner et al. 506.

CYSTIC HYGROMATA LYMPHANGIOMATA

Congenital lymphangiectasia with fetal cystic hygroma: Report of two cases with coexistent Down's syndrome. Weingast et al. 663.

CYSTITIS

Sonography of cyclophosphamide hemorrhagic cystitis: A report of two cases. Suzuki et al. 183.

DIABETIC GRAVIDA

Fetal weight estimates in diabetic gravid women. Miller et al. 569.

DIAGNOSIS

Fetal teratomas: Antenatal diagnosis and clinical management. Teal et al. 329.

DIAPHRAGMATIC HERNIA

Diaphragmatic eventration into the pericardial sac: Sonographic diagnosis. Vijayaraghavan. 510.

DIASTOLIC FUNCTION

Phasic flow in the left ventricular inflow tract: The importance of Doppler sample volume position. Delemarre et al. 227.

DISTAL STENOSES

Peroperative monitoring of distal transluminal dilatation. McShane et al. 659.

DOPPLER ECHOCARDIOGRAPHY

Usefulness of Doppler echocardiography in the management of patients with mitral stenosis during pregnancy. Moro et al. 114.

DOPPLER EXAMINATION

Cerebral blood flow velocity waveforms in hydrocephalic fetuses. Kirkinen et al. 493.

DOPPLER FLOW PATTERN OF CORONARY ARTERY

Doppler echocardiographic approach to the blood flow of the left anterior descending coronary artery. Miyatake et al. 471.

DOPPLER FLOW VELOCITY WAVEFORMS

Reverse flow in the human fetal descending aorta as a sign of severe fetal asphyxia preceding intrauterine death. Illyés et al. 403.

DOPPLER ULTRASOUND

Assessment of utero-placental blood flow velocity wave forms in a pregnant patient with systemic lupus erythematosus. Meizner et al. 55.

Ultrasonic measurement of fetal blood velocity wave form as a secondary diagnositic test in screening for intrauterine growth retardation. Maršál et al. 239.

DOWN'S SYNDROME

Congenital lymphangiectasia with fetal cystic hygroma: Report of two cases with coexistent Down's syndrome. Weingast et al. 663.

DUCTAL DILATATION

The utility of image-directed Doppler ultrasound in the evaluation of the "parallel channel" sign. Levy et al. 424.

DWARFISM IN THE FETUS

Antenatal ultrasound diagnosis of the femur—fibula—ulna syndrome. Hirose et al. 199.

ECHINOCOCCOSIS

Echogenic forms of hydatid cysts: Sonographic diagnosis. Garcia et al. 305.

ECHINOCOCCUS

Ultrasound scanning as a screening technique for hydatidosis in developing countries. Saint Martin et al. 233.

ECHOCARDIOGRAPHIC DETECTION

Passage of mobile right heart thrombus to the left cardiac chambers echocardiographic detection and surgical removal. Singh et al. 592.

ECHOCARDIOGRAPHY

Echocardiographic features of a giant congenital aneurysm of the right coronary artery. Zhang et al. 502.

ECHOGENIC HEMATOMA

Sonographic demonstration of echogenic hemobilia. Allen et al. 681.

ECTOPIA CORDIS

Diagnosis of ectopia cordis in the second trimester. Klingensmith et al. 204.

ECTOPIC PREGNANCY

Ultrasound diagnosis of combined intrauterine and extrauterine pregnancy. Jurkovic et al. 259.

EMBOLIZATION OF THE BIOPSY TRACK

Liver biopsy embolization track: Ultrasonic appearance. Carvalho et al. 426.

EMBRYONIC PORTAL VESSELS

An unusual anomalous intrahepatic connection between the left portal vein and internal mammary veins. Shawker et al. 429.

ENDOCERVICAL CANAL

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

ENDOMETRIAL CAVITY

Ultrasound appearance of adenomyosis mimicking adenocarcinoma in a postmenopausal woman. Lister et al. 519.

ENDOSCOPIC ULTRASONOGRAPHY

Endoscopic ultrasonography of esophageal tumors and compressions. Silva et al. 149.

ENDOTRACHEAL (ET) TUBE

Sonographic verification of endotracheal tube position in neonates: A modified technique. Lingle. 605.

EPIDIDYMAL SARCOIDOSIS

Ultrasonographic detection of epididymal sarcoidosis. Forte and Brant. 191.

EPIDIDYMO-ORCHITIS

Sonographic findings in scrotal brucellosis. Patel et al. 483.

EPILEPTICUS

Enlargement of adrenal glands preceding adrenal hemorrhage. Nissenbaum et al. 349.

ESTIMATED FETAL WEIGHT

Estimated fetal weight: Applicability to small- and large-for-gestational-age fetus. Miller et al. 95.

ESTIMATING FETAL WEIGHT

A comparison of two different ultrasound methods for estimating fetal weight in preterm gestations. Campbell et al. 463.

EXTERNAL COMPRESSION

Endoscopic ultrasonography of esophageal tumors and compressions. Silva et al. 149.

FALLOPIAN TUBE CARCINOMA

Ultrasound appearance of fallopian tube carcinoma. Ajjimakorn et al. 516.

FAT LIVER

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

FATTY LIVER

A new method of measuring in vivo sound speed in the reflection mode. Hayashi et al. 87.

FEMUR LENGTH

Fetal weight estimates in diabetic gravid women. Miller et al. 569.

FETAL ARRHYTHMIA

Fetal atrial arrhythmias associated with redundancy/aneurysm of the foramen ovale. Stewart et al. 643.

FETAL ATRIAL SEPTAL ANEURYSM

Fetal atrial arrhythmias associated with redundancy/aneurysm of the foramen ovale. Stewart et al. 643.

FETAL BLOOD FLOW

Ultrasonic measurement of fetal blood velocity wave form as a secondary diagnositic test in screening for intrauterine growth retardation. Maršál et al. 239.

FETAL DISEASE

In utero ultrasound diagnosis of congenital heart disease. Marasini et al. 103.

FETAL ECHOCARDIOGRAPHY

In utero ultrasound diagnosis of congenital heart disease. Marasini et al. 103.

FETAL GROWTH

Mathematical modeling of fetal growth: V. fetal weight changes at term. Rossavik et al. 9.

FETAL HEART

In utero ultrasound diagnosis of congenital heart disease. Marasini et al. 103.

FETAL HYDROCEPHALUS

In utero ultrasonic detection of fetal arachnoid cyst. Meizner et al. 506.

FETAL PARAMETERS

Circumference measurements in obstetrical ultrasound: Ellipse vs. arithmetic mean. Adler et al. 361.

FETAL WEIGHT

Fetal weight estimates in diabetic gravid women. Miller et al. 569.

Mathematical modeling of fetal growth: V. fetal weight changes at term. Rossavik et al. 9.

FETAL WEIGHT ESTIMATION

Predictiveness of sonographic fetal weight estimation as a function of prior probability of intrauterine growth retardation. Simon et al. 285.

FETICIDE

Ultrasound-guided selective feticide of hydrocephalic fetus in triplet pregnancy. Shalev et al. 41.

FETUS

Fetal teratomas: Antenatal diagnosis and clinical management. Teal et al. 329.

FETUS, CENTRAL NERVOUS SYSTEM

Detection of open spina bifida by the lemon sign: Pathologic correlation. Gabbe et al. 399.

FETUS, ULTRASOUND STUDIES

Detection of open spina bifida by the lemon sign: Pathologic correlation. Gabbe et al. 399.

FREQUENCY-DEPENDENT ATTENUATION (FDA)

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

GALLBLADDER

Fm sonography in gallbladder disease: Efficacy and comparison with conventional sonography. Henley et al. 563.

Ultrasound scanning as a screening technique for hydatidosis in developing countries. Saint Martin et al. 233.

Unusual causes of sonographic nonvisualization or nonrecognition of the gallbladder: A review. Hammond. 77.

GALLBLADDER PERFORATION

Ultrasound diagnosis of perforation of the gallbladder: Real-time application and the demonstration of a new sonographic sign. Chau et al. 358.

GALLBLADDER WALL VARICES

Gallbladder wall varices: Diagnosis with color flow Doppler sonography. Ralls et al. 595.

GANGRENOUS APPENDICITIS

Acute perforated appendicitis—An unusual variant simulating acute acalculous cholecystitis. Evans et al. 513.

GASTRIC BEZOAR

Gas-containing splenic infarct masquerading as gastric bezoar: Ultrasound elucidation. Williamson et al. 678.

GASTRIC CARDIA

Ultrasound demonstration of an intramural leiomyoma of the gastric cardia with pathologic correlation. Weinberg et al. 580.

GENITAL SARCOIDOSIS

Ultrasonographic detection of epididymal sarcoidosis. Forte and Brant. 191.

HEART THROMBUS

Passage of mobile right heart thrombus to the left cardiac chambers echocardiographic detection and surgical removal. Singh et al. 592.

HEMATOMA

Sonographic demonstration of echogenic hemobilia. Allen et al. 681.

HEMOBILIA

Sonographic findings in traumatic hemobilia: Report of two cases and review of the literature. Sax et al. 29.

HEMODYNAMIC STATUS

Usefulness of Doppler echocardiography in the management of patients with mitral stenosis during pregnancy. Moro et al. 114.

HEMOPHILIA

Ultrasonographic evaluation of intramural gastric and duodenal hematoma in hemophiliacs. Morimoto et al. 108.

HEMOPHILIAC

Ultrasonographic evaluation of intramural gastric and duodenal hematoma in hemophiliacs. Morimoto et al. 108.

HEMORRHAGIC DIATHESIS

Ultrasound diagnosis of acute scrotal hemorrhage in Henoch–Schonlein Purpura. Cooper et al. 353.

HENOCH–SCHONLEIN PURPURA (HSP)

Ultrasound diagnosis of acute scrotal hemorrhage in Henoch–Schonlein Purpura. Cooper et al. 353.

HEPATIC ARTERY

Replaced or right accessory hepatic artery: Can ultrasound replace angiography? Bret et al. 245.

HEPATIC ARTERY ANEURYSM

Sonographic findings in traumatic hemobilia: Report of two cases and review of the literature. Sax et al. 29.

HEPATIC PSEUDOTUMORS

An ultrasonic hepatic pseudomass due to colonic interpostion. Wong et al. 669.

HEPATIC SONOGRAPHY

Observer error in the characterization of hepatic lesions in patients with neoplastic liver disease. Iscoe et al. 577.

HEPATOBILIARY IMAGING

Effect of cholecystectomy on common bile duct diameters: A longitudinal prospective ultrasonographic study. Wedmann et al. 619.

HETEROTOPIC PREGNANCY

Delayed diagnosis of advanced combined pregnancy. Reuss. 187.

HIP JOINT

Sonography of the hip joint as part of the evaluation of acute lower abdominal pain. Graif et al. 99.

HOLOPROSENCEPHALY

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

HYDATIDOSIS

Ultrasound scanning as a screening technique for hydatidosis in developing countries. Saint Martin et al. 233.

HYDRANENCEPHALY

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

HYDROCEPHALIC FETUS

Ultrasound-guided selective feticide of hydrocephalic fetus in triplet pregnancy. Shalev et al. 41.

HYDROCEPHALUS

Cerebral blood flow velocity waveforms in hydrocephalic fetuses. Kirkinen et al. 493.

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

HYDROTUBATION

A case of female infertility investigated by contrast-enhanced echo-gynecography. Davison and Leeton. 44.

HYPONATREMIA

Hyponatremia as the result of preparation for abdominal ultrasound examination. Shapira et al. 61.

INDIVIDUAL GROWTH CURVE STANDARD

Development of individual growth curve standards for estimated fetal weight: I. Weight estimation procedure. Deter et al. 215.

INFERTILITY

A case of female infertility investigated by contrast-enhanced echo-gynecography. Davison and Leeton. 44.

INFLAMMATORY POLYPS

Hypoechoic solitary inflammatory polyp of the gallbladder. Hallgrimsson et al. 603.

INTERACTIVE IMAGE PROCESSING

Local texture analysis: An approach to differentiating liver tissue objectively. Schuster et al. 453.

INTRACRANIAL ABNORMALITIES

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

INTRAHEPATIC PORTAL VESSEL

An unusual anomalous intrahepatic connection between the left portal vein and internal mammary veins. Shawker et al. 429.

INTRAMURAL GASTROINTESTINAL HEMORRHAGE

Ultrasonographic evaluation of intramural gastric and duodenal hematoma in hemophiliacs. Morimoto et al. 108.

INTRAUTERINE AND EXTRAUTERINE PREGNANCY

Delayed diagnosis of advanced combined pregnancy. Reuss. 187.

INTRAUTERINE CAVITY

Ultrasound appearance of adenomyosis mimicking adenocarcinoma in a postmenopausal woman. Lister et al. 519.

INTRAUTERINE DEATH

Reverse flow in the human fetal descending aorta as a sign of severe fetal asphyxia preceding intrauterine death. Illyés et al. 403.

INTRAUTERINE GROWTH RETARDATION

Predictiveness of sonographic fetal weight estimation as a function of prior probability of intrauterine growth retardation. Simon et al. 285.

Ultrasonic measurement of fetal blood velocity wave form as a secondary diagnositic test in screening for intrauterine growth retardation. Maršál et al. 239.

JAUNDICE

The utility of image-directed Doppler ultrasound in the evaluation of the "parallel channel" sign. Levy et al. 424.

JOINT EFFUSION

Sonography of the hip joint as part of the evaluation of acute lower abdominal pain. Graif et al. 99.

KLIPPLE—TRENAUNAY SYNDROME

Klipple—Trenaunay syndrome: Ultrasonic prenatal diagnosis. Shalev et al. 268.

KNEE-JOINT TRAUMA

Dynamic ultrasonography of capsulo-ligamentous knee joint traumas. De Flaviis et al. 487.

LAPAROSCOPY

A case of female infertility investigated by contrast-enhanced echo-gynecography. Davison and Leeton. 44.

LEFT ANTERIOR DESCENDING CORONARY ARTERY

Doppler echocardiographic approach to the blood flow of the left anterior descending coronary artery. Miyatake et al. 471.

LEMON SIGN

Detection of open spina bifida by the lemon sign: Pathologic correlation. Gabbe et al. 399.

LETHAL FETAL RENAL MALFORMATIONS

Oligohydramnios associated with bilateral multicystic dysplastic kidneys: Prenatal diagnosis at 15 week's gestation. Stiller et al. 436.

LIGAMENTOUS RUPTURE

Dynamic ultrasonography of capsulo-ligamentous knee joint traumas. De Flaviis et al. 487.

LIVER

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

Ultrasound scanning as a screening technique for hydatidosis in developing countries. Saint Martin et al. 233.

LIVER BIOPSY

Liver biopsy embolization track: Ultrasonic appearance. Carvalho et al. 426.

LIVER CIRRHOSIS

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

LIVER DISEASE

Observer error in the characterization of hepatic lesions in patients with neoplastic liver disease. Iscoe et al. 577.

LIVER HEMATOMA

Sonographic findings in traumatic hemobilia: Report of two cases and review of the literature. Sax et al. 29.

LOCAL TEXTURE ANALYSIS

Local texture analysis: An approach to differentiating liver tissue objectively. Schuster et al. 453.

LUCENCIES

Gas-containing splenic infarct masquerading as gastric bezoar: Ultrasound elucidation. Williamson et al. 678.

LUPUS ERYTHEMATOSUS

Assessment of utero-placental blood flow velocity wave forms in a pregnant patient with systemic lupus erythematosus. Meizner et al. 55.

LYMPHOMA

Ultrasonographic and computed tomographic features of renal sinus lymphoma. Ruchman et al. 35.

MALFORMATIONS, IN FETUSES

Prenatal sonographic diagnosis of VATER association. McGahan et al. 588.

MATHEMATICAL MODELS

Mathematical modeling of fetal growth: V. fetal weight changes at term. Rossavik et al. 9.

MEAN FREQUENCY

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

MECONIUM PERITONITIS

Sonographic findings of generalized meconium peritonitis presenting as neonatal ascites. Wu. 48.

MENSTRUAL AGE COMPARISON

A comparison of two different ultrasound methods for estimating fetal weight in preterm gestations. Campbell et al. 463.

MESENTERIC HEMATOMA

A complex cystic abdominal mass: An unusual presentation of Crohn's disease in an anticoagulated patient. Khan et al. 271.

MESOATRIAL SHUNTS

Duplex Doppler evaluation of mesocaval and mesoatrial shunt patency. Fraser et al. 127.

MESOCAVAL

Duplex Doppler evaluation of mesocaval and mesoatrial shunt patency. Fraser et al. 127.

MITRAL STENOSIS

Usefulness of Doppler echocardiography in the management of patients with mitral stenosis during pregnancy. Moro et al. 114.

MUCOCELE, OF THE VERMIFORM APPENDIX

Ultrasonographic features of mucocele of the appendix. Skaane et al. 584.

MUCOUS ACCUMULATION

Ultrasonographic features of mucocele of the appendix. Skaane et al. 584.

MULTIPLE PREGNANCY

Ultrasound-guided selective feticide of hydrocephalic fetus in triplet pregnancy. Shalev et al. 41.

MUSCLE ATROPHY

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

Ultrasonography of the peroneal nerve muscle group in normal subjects and patients with peroneal paresis. Boonstra et al. 17.

MUSCLE HYPERTROPHY

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

MUSCLE THICKNESS

Measurement of quadriceps muscle thickness and subcutaneous tissue thickness in normal children by real-time ultrasound imaging. Heckmatt et al. 171.

MUSCULAR DYSTROPHY

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

NEONATAL AIRWAY

Sonographic verification of endotracheal tube position in neonates: A modified technique. Lingle. 605.

NEONATAL ASCITES

Sonographic findings of generalized meconium peritonitis presenting as neonatal ascites. Wu. 48.

NEOPLASMS

Observer error in the characterization of hepatic lesions in patients with neoplastic liver disease. Iscoe et al. 577.

Ultrasonographic diagnosis of submucosal tumors of the stomach: The "bridging layers" sign. Miyamoto et al. 251.

NERVE LESION

Ultrasonography of the peroneal nerve muscle group in normal subjects and patients with peroneal paresis. Boonstra et al. 17.

NEURAL TUBE DEFECT

"Bullet"-shaped head in fetuses with spina bifida: A pointer to the spinal lesion. Chambers et al. 25.

NEUROMUSCULAR DISEASE

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

NEWBORN SPINE

Ultrasound diagnosis of neonatal spinal epidural hemorrhage. Leadman et al. 440.

NON-HODGKIN LYMPHOMA

Sonography of cyclophosphamide hemorrhagic cystitis: A report of two cases. Suzuki et al. 183.

NONHYDROCEPHALIC INTRACRANIAL MALFORMATIONS

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

NONVISUALIZATION

Unusual causes of sonographic nonvisualization or nonrecognition of the gallbladder: A review. Hammond. 77.

NORMAL PREGNANCY

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

NORMAL VARIANT

Replaced or right accessory hepatic artery: Can ultrasound replace angiography? Bret et al. 245.

NORMALS

Effects of aging on cardiac blood flow velocities. van Dam et al. 375.

OBSERVER ERROR

Observer error in the characterization of hepatic lesions in patients with neoplastic liver disease. Iscoe et al. 577.

OBSTETRICS

Portable obstetrical ultrasound calculation and analysis using an inexpensive laptop microcomputer and simple basic program. Dunne et al. 417.

OLIGOHYDRAMNIOS

Oligohydramnios associated with bilateral multicystic dysplastic kidneys: Prenatal diagnosis at 15 week's gestation. Stiller et al. 436.

ORBITAL TRAUMA

An unusual case of intracerebral hematoma caused by an indriven fragment of bone: Ultrasound evaluation with CT correlation. Weinberg et al. 52.

OVARIAN NEOPLASMS

Simple adnexal cysts diagnosed by ultrasound in postmenopausal women. Andolf et al. 301.

OVULATION INDUCTION

Application of ultrasound in the diagnosis of heterotopic pregnancy—a review of the literature. van Dam et al. 159.

PANCREATIC PSEUDOCYST

The real-time ultrasonography of pancreatic pseudocyst: Comparison of infected and noninfected pseudocysts. Lee et al. 393.

PANCREATIC SARCOIDOSIS

Pancreatic sarcoidosis mimicking pancreatic cancer. Sagalow et al. 131.

PARALYTIC ILEUS

Ultrasonic diagnosis of acute appendicitis complicated by paralytic ileus and generalized periotonitis. Takada et al. 123.

PARENCHYMAL LIVER DISEASE

Local texture analysis: An approach to differentiating liver tissue objectively. Schuster et al. 453.

PELVIC VARICOSITIES

Pelvic varices: Sonographic and surgical recognition. Willard. 265.

PERCUTANEOUS CANNULATION

Ultrasound-guided catheterization of the subclavian vein. Yonei et al. 499.

PERFORATION OF THE GALLBLADDER

Ultrasound diagnosis of perforation of the gallbladder: Real-time application and the demonstration of a new sonographic sign. Chau et al. 358.

PERITONEAL CAVITY

Sonographic identification of an unusual complication of midtimester pregnancy termination: Unrecognized intra-abdominal extrusion of fetal parts. Bowerman et al. 119.

PERITONEAL INFUSION

A case of female infertility investigated by contrast-enhanced echo-gynecography. Davison and Leeton. 44.

PERITONEAL TUBERCULOSIS

Sonographic features of tuberculous omental cakes in peritoneal tuberculosis. Wu et al. 195.

PERITONEOSCOPY

Sonographic features of tuberculous omental cakes in peritoneal tuberculosis. Wu et al. 195.

PERITONITIS

Ultrasonic diagnosis of acute appendicitis complicated by paralytic ileus and generalized periotonitis. Takada et al. 123.

PERIURETERAL FAT

Ultrasonographic and computed tomographic features of renal sinus lymphoma. Ruchman et al. 35.

POLYPS, OF THE GALLBLADDER

Hypoechoic solitary inflammatory polyp of the gallbladder. Hallgrimsson et al. 603.

PORENCEPHALY

Congenital cerebrospinal fluid-containing intracranial abnormalities: A sonographic classification. McGahan et al. 531.

PORTOSYSTEMIC SHUNTS

Duplex Doppler evaluation of mesocaval and mesoatrial shunt patency. Fraser et al. 127.

POSTMENOPAUSAL WOMAN

Ultrasound appearance of adenomyosis mimicking adenocarcinoma in a postmenopausal woman. Lister et al. 519.

PRENATAL DIAGNOSIS

"Bullet"-shaped head in fetuses with spina bifida: A pointer to the spinal lesion. Chambers et al. 25.

PRENATAL SONOGRAPHY

Circumference measurements in obstetrical ultrasound: Ellipse vs. arithmetic mean. Adler et al. 361.

PRENATAL ULTRASOUND

Fetal atrial arrhythmias associated with redundancy/aneurysm of the foramen ovale. Stewart et al. 643.

PRETERM BIRTH

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

PRETERM GESTATIONS

A comparison of two different ultrasound methods for estimating fetal weight in preterm gestations. Campbell et al. 463.

PROLAPSUS OF FETAL MEMBRANES

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

PSEUDOPUBERTY

Autonomous ovarian cyst in isosexual precocious pseudopuberty. Baran et al. 58.

PULMONARY CIRCULATION

Passage of mobile right heart thrombus to the left cardiac chambers echocardiographic detection and surgical removal. Singh et al. 592.

PULSATILITY INDEX

Comparison of blood velocity waveform indices recorded by pulsed Doppler and continuous wave Doppler in the umbilical artery. Vugt et al. 573.

PULSED DOPPLER

Comparison of blood velocity waveform indices recorded by pulsed Doppler and continuous wave Doppler in the umbilical artery. Vugt et al. 573.

Phasic flow in the left ventricular inflow tract: The importance of Doppler sample volume position. Delemarre et al. 227.

The utility of image-directed Doppler ultrasound in the evaluation of the "parallel channel" sign. Levy et al. 424.

PULSED DOPPLER ECHOCARDIOGRAPHY

Effects of aging on cardiac blood flow velocities. van Dam et al. 375.

RADIATION THERAPY, BREAST

The sonographic appearance of the irradiated breast. Calkins et al. 409.

REAL-TIME SONOGRAPHY

"Bullet"-shaped head in fetuses with spina bifida: A pointer to the spinal lesion. Chambers et al. 25.

REAL-TIME ULTRASOUND

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

Measurement of quadriceps muscle thickness and subcutaneous tissue thickness in normal children by real-time ultrasound imaging. Heckmatt et al. 171.

RENAL SINUS

Ultrasonographic and computed tomographic features of renal sinus lymphoma. Ruchman et al. 35.

RESISTANCE INDEX

Comparison of blood velocity waveform indices recorded by pulsed Doppler and continuous wave Doppler in the umbilical artery. Vugt et al. 573.

RESPIRATORY FAILURE

Sonographic verification of endotracheal tube position in neonates: A modified technique. Lingle. 605.

REVERSE FLOW

Reverse flow in the human fetal descending aorta as a sign of severe fetal asphyxia preceding intrauterine death. Illyés et al. 403.

RISK OF INTRAUTERINE GROWTH RETARDATION

Predictiveness of sonographic fetal weight estimation as a function of prior probability of intrauterine growth retardation. Simon et al. 285.

ROTATOR CUFF TEARS

Clinical significance of sonographic findings in the abnormal but intact rotator cuff: A preliminary report. Crass et al. 625.

ROTATOR CUFF ULTRASONOGRAPHY

Ultrasonography of rotator cuff tears: A review of 500 diagnostic studies. Crass et al. 313.

SACCULAR ANEURYSMS OF THE COMMON CAROTID ARTERY BIFURCATION

Common carotid artery aneurysm: Ultrasonic diagnosis. Wang et al. 262.

SARCOIDOSIS

Pancreatic sarcoidosis mimicking pancreatic cancer. Sagalow et al. 131.

Ultrasonographic detection of epididymal sarcoidosis. Forte and Brant. 191.

SCHIZENCEPHALY

Congenital cerebrospinal fluid-containing intractranial abnormalities: A sonographic classificatrion. McGahan et al. 531.

SCREENING

Ultrasonic measurement of fetal blood velocity wave form as a secondary diagnositic test in screening for intrauterine growth retardation. Maršál et al. 239.

SCREENING ABDOMINAL SONOGRAPHY

The impact of routine admission abdominal sonography on patient care. Verbanck et al. 651.

SCROTUM

Sonographic findings in scrotal brucellosis. Patel et al. 483.

SCROTUM, CALCIFICATION

Significance of scrotal calcifications detected by sonography. Martin et al. 545.

SHOULDER

Ultrasonography of rotator cuff tears: A review of 500 diagnostic studies. Crass et al. 313.

SHOULDER PAIN

Clinical significance of sonographic findings in the abnormal but intact rotator cuff: A preliminary report. Crass et al. 625.

SIRENOMELIA

Antenatal diagnosis of sirenomelia (sympus apus). Honda et al. 675.

SOFTWARE

Portable obstetrical ultrasound calculation and analysis using an inexpensive laptop microcomputer and simple basic program. Dunne et al. 417.

SOUND SPEED

A new method of measuring in vivo sound speed in the reflection mode. Hayashi et al. 87.

SPECTRAL-SHIFT ZERO-CROSSING

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

SPINABIFIDA

Detection of open spina bifida by the lemon sign: Pathologic correlation. Gabbe et al. 399.

SPINAL MUSCULAR ATROPHY

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

SPLEEN

Studies on frequency-dependent attenuation in the normal liver and spleen and in liver diseases, using the spectral-shift zero-crossing method. Itoh et al. 553.

SPLENIC INFARCTION

Gas-containing splenic infarct masquerading as gastric bezoar: Ultrasound elucidation. Williamson et al. 678.

STOMACH

Ultrasonographic diagnosis of submucosal tumors of the stomach: The "bridging layers" sign. Miyamoto et al. 251.

STRESS URINARY INCONTINENCE

Ultrasonic evaluation of urethrovesical junction in women with stress urinary incontinence. Bergman et al. 295.

SUBCLAVIAN VEIN (SCV)

Ultrasound-guided catheterization of the subclavian vein. Yonei et al. 499.

SUBCUTANEOUS TISSUE

Assessment of quadriceps femoris muscle atrophy and hypertrophy in neuromuscular disease in children. Heckmatt et al. 177.

SUBCUTANEOUS TISSUE THICKNESS

Measurement of quadriceps muscle thickness and subcutaneous tissue thickness in normal children by real-time ultrasound imaging. Heckmatt et al. 171.

SUBMUCOSAL TUMOR

Endoscopic ultrasonography of esophageal tumors and compressions. Silva et al. 149.

Ultrasonographic diagnosis of submucosal tumors of the stomach: The "bridging layers" sign. Miyamoto et al. 251.

TEARS, ROTATOR CUFFS

Ultrasonography of rotator cuff tears: A review of 500 diagnostic studies. Crass et al. 313.

TENDON, ROTATOR CUFF

Ultrasonography of rotator cuff tears: A review of 500 diagnostic studies. Crass et al. 313.

TENDONITIS, NONCALCIFIC

Clinical significance of sonographic findings in the abnormal but intact rotator cuff: A preliminary report. Crass et al. 625.

TERATOMAS

Fetal teratomas: Antenatal diagnosis and clinical management. Teal et al. 329.

TESTIS, NEOPLASMS

Significance of scrotal clacifications detected by sonography. Martin et al. 545.

TESTIS, ULTRASOUND STUDIES

Significance of scrotal calcifications detected by sonography. Martin et al. 545.

THROMBOSIS

A prospective study of the efficacy of B-scan sonography in the detection of deep venous thrombosis in the lower extremities. O'Leary et al. 1.

TISSUE CHARACTERIZATION

A new method of measuring in vivo sound speed in the reflection mode. Hayashi et al. 87.

TRANSLUMINAL DILATATION

Peroperative monitoring of distal transluminal dilatation. McShane et al. 659.

TRANSMITRAL FLOW

Phasic flow in the left ventricular inflow tract: The importance of Doppler sample volume position. Delemarre et al. 227.

TRUCUT LIVER BIOPSY

Liver biopsy embolization track: Ultrasonic appearance. Carvalho et al. 426.

TUBERCULOUS OMENTAL CAKES

Sonographic features of tuberculous omental cakes in peritoneal tuberculosis. Wu et al. 195.

TURNER'S SYNDROME

Congenital lymphangiectasia with fetal cystic hygroma: Report of two cases with coexistent Down's syndrome. Weingast et al. 663.

TWINS

Antenatal diagnosis of a set of conjoined twins presenting with unusual ultrasound findings. Hurren et al. 672.

TWO-DIMENSIONAL DOPPLER ECHOCARDIOGRAPHY

Doppler echocardiographic approach to the blood flow of the left anterior descending coronary artery. Miyatake et al. 471.

ULTRASONICS

Simple adnexal cysts diagnosed by ultrasound in postmenopausal women. Andolf et al. 301.

ULTRASONOGRAPHY

Application of ultrasound in the diagnosis of heterotopic pregnancy—a review of the literature. van Dam et al. 159.

Effect of cholecystectomy on common bile duct diameters: A longitudinal prospective ultrasonographic study. Wedmann et al. 619.

Sonographic findings in traumatic hemobilia: Report of two cases and review of the literature. Sax et al. 29.

Ultrasonography of the peroneal nerve muscle group in normal subjects and patients with Peroneal paresis. Boonstra et al. 17.

ULTRASOUND

A comparison of two different ultrasound methods for estimating fetal weight in preterm gestations. Campbell et al. 463.

Echogenic forms of hydatid cysts: Sonographic diagnosis. Garcia et al. 305.

Estimated fetal weight: Applicability to small- and large-for-gestational-age fetus. Miller et al. 95.

Fetal teratomas: Antenatal diagnosis and clinical management. Teal et al. 329.

Replaced or right accessory hepatic artery: Can ultrasound replace angiography? Bret et al. 245.

Sonographic findings in scrotal brucellosis. Patel et al. 483.

Sonography of the hip joint as part of the evaluation of acute lower abdominal pain. Graif et al. 99.

The real-time ultrasonography of pancreatic pseudocyst: Comparison of infected and noninfected pseudocysts. Lee et al. 393.

Ultrasonographic diagnosis of submucosal tumors of the stomach: The "bridging layers" sign. Miyamoto et al. 251.

Ultrasonography in the detection of cervical incompetency. Podobnik et al. 383.

Ultrasound diagnosis of combined intrauterine and extrauterine pregnancy. Jurkovic et al. 259.

ULTRASOUND, BREAST

The sonographic appearance of the irradiated breast. Calkins et al. 409.

ULTRASOUND CALCULATION

Portable obstetrical ultrasound calculation and analysis using an inexpensive laptop microcomputer and simple basic program. Dunne et al. 417.

ULTRASOUND COMPARATIVE STUDIES

Echogenic forms of hydatid cysts: Sonographic diagnosis. Garcia et al. 305.

Sonographic examination of the adult brain. Berland et al. 337.

ULTRASOUND, DOPPLER STUDIES

Sonographic examination of the adult brain. Berland et al. 337.

ULTRASOUND, HEAD

Sonographic examination of the adult brain. Berland et al. 337.

ULTRASOUND, IN PRENATAL DIAGNOSIS

Prenatal sonographic diagnosis of VATER association. McGahan et al. 588.

ULTRASOUND, PELVIC

Sonography of normal lower ureters. Mirk et al. 635.

ULTRASOUND, PHYSICS

Fm sonography in gallbladder disease: Efficacy and comparison with conventional sonography. Henley et al. 563.

ULTRASOUND, TECHNOLOGY

FM sonography in gallbladder disease: Efficacy and comparison with conventional sonography. Henley et al. 563.

ULTRASOUND USED TO ASSESS SPINAL CORD TRAUMA

Ultrasound diagnosis of neonatal spinal epidural hemorrhage. Leadman et al. 440.

UMBILICAL CORD

False knot of the umbilical cord sonographic appearance and differential diagnosis. Hertzberg et al. 599.

URETEROVESICAL JUNCTION

Sonography of normal lower ureters. Mirk et al. 635.

URETERS, NORMAL

Sonography of normal lower ureters. Mirk et al. 635.

URETHROVESICAL JUNCTION IN WOMEN

Ultrasonic evaluation of urethrovesical junction in women with stress urinary incontinence. Bergman et al. 295.

URINARY INCONTINENCE, STRESS

Ultrasonic evaluation of urethrovesical junction in women with stress urinary incontinence. Bergman et al. 295.

URINARY TRACT, ANOMALIES

Sonography of normal lower ureters. Mirk et al. 635.

UTERINE PERFORATION

Sonographic identification of an unusual complication of midtimester pregnancy termination: Unrecognized intra-abdominal extrusion of fetal parts. Bowerman et al. 119.

UTERO-PLACENTAL BLOOD FLOW

Assessment of utero-placental blood flow velocity wave forms in a pregnant patient with systemic lupus erythematosus. Meizner et al. 55.

VASA PREIVA

Vasa previa. Reuter et al. 346.

VATER ASSOCIATION

Prenatal sonographic diagnosis of VATER association. McGahan et al. 588.

VELAMENTOUS INSERTION OF THE UMBILICAL CORD

Vasa previa. Reuter et al. 346.

VELOCITY WAVEFORM

Comparison of blood velocity waveform indices recorded by pulsed Doppler and continuous wave Doppler in the umbilical artery. Vugt et al. 573.

VENOUS

A prospective study of the efficacy of B-scan sonography in the detection of deep venous thrombosis in the lower extremities. O'Leary et al. 1.

VENOUS CATHETERIZATION

Ultrasound-guided catheterization of the subclavian vein. Yonei et al. 499.

WALL LESIONS

Ultrasound demonstration of an intramural leiomyoma of the gastric cardia with pathologic correlation. Weinberg et al. 580.

WATER ENEMAS

Hyponatremia as the result of preparation for abdominal ultrasound examination. Shapira et al. 61.

WEIGHT ESTIMATION PROCEDURE

Development of individual growth curve standards for estimated fetal weight: I. Weight estimation procedure. Deter et al. 215.
